

Missouri Area Reports

What our membership has told us.

Our membership has suggested that in giving a District report, they want to learn about:

- ❖ What is working for you?
- ❖ District and Group activities
- ❖ Triumphs, struggles or unanswered questions
- ❖ Success stories and ideas generated
- ❖ How you have used the principles in business meetings or other activities?
- ❖ What you enjoy about your service position?

What do you do if there is nothing new to report?

What else could be added to these suggestions?

Our membership has indicated they would rather not:

- ❑ Have the counties shared as part of the report. They are on the front cover of the Procedures Digest.
- ❑ Hear about district details such as finances
- ❑ Please don't read your report verbatim. Share with us what you believe are the important highlights.

Are there other suggestions regarding report content?

What about Coordinator Reports.
Do these suggestions apply?

What suggestions have been made by our membership regarding the number of reports, delivery and time used during our business meetings?

- Could Coordinators and District Representatives give one report at AWSC and one report at Assembly a year rather than all four?
- Could giving reports be optional?
- Could reports be given only if time allows at the end of AWSC or Assembly after all other business is completed to it's fullest.

What are the Pros/Cons of the above ideas?
What else would you add?
